Administrator

Research Support for Wider Care Settings

Settings

- Site engagement
- Site ID/local intelligence
- 'virtual R&D office'
- Study setup support
- Informatics
- Funding
- Collaboration opportunities
- Support through delivery and close down

How We Do This: Our Delivery Approach

Stakeholder Engagement

Building and maintaining key relationships.

Internal Integration

Incorporating wider RDN support as needed.

Opportunity Sharing

Distributing portfolio study opportunities across NENC.

Effective Communication

Aligning support requests between study teams and delivery staff.

Staff Development

Ensuring staff are trained, confident, and competent in study delivery.

Full Lifecycle Support

Deploying staff from study setup through close-down.

Capacity Building

Embedding within teams to develop site capacity.
